ERICK EDEL BELTRAN CASTILLO
FRONTEND ENGINEER | REACT, REACT NATIVE & TYPESCRIPT
Los Mochis, Sinaloa, Mexico | erickedelbeltran@gmail.com | +52 668 220 1744
Portfolio: edcastsh.vercel.app | GitHub: github.com/edcastsh

PROFESSIONAL SUMMARY

Software engineer with 4+ years of experience in production web and mobile applications. React, React Native, TypeScript, JavaScript, Node.js, component architecture, REST APIs, automated testing, CI/CD, technical leadership, and cross-functional delivery.

TECHNICAL SKILLS

Frontend: React, React Native, TypeScript, JavaScript, Redux, Zustand, Vite
Backend: Node.js, Express, REST APIs, background workers
Testing: Jest, unit/integration testing, code reviews
Data: PostgreSQL, MySQL, MongoDB, SQLite
Delivery: GitHub Actions, GitLab CI/CD, Docker, Azure, DigitalOcean, Railway
UI: Tailwind CSS, Material UI, shadcn/ui, Storybook
AI-assisted engineering: Cursor, Claude CLI, RAG concepts, n8n, MCP workflows

PROFESSIONAL EXPERIENCE

Avondale Auto Glass | Oct 2025 - Present
Tech Lead & Project Manager
- Architect and maintain a B2B/B2C platform spanning three applications.
- Lead a team of 5+ developers, code reviews, Git workflows and delivery.
- Build multi-warehouse inventory, order processing and Clover integration.
- Implement AI-assisted issue triage, requirements and cross-tool workflows.

Slalom (Amazon Pay Studio) - Inetum | Nov 2024 - Oct 2025
Senior Software Development Engineer
- Maintained a cross-platform React Native TypeScript library.
- Built reusable components adopted by multiple engineering teams.

- Implemented Jest tests and collaborated on architecture decisions.

Ola Technologies | May 2023 - Nov 2024
Full Stack Developer
- Automated newsletters with PDF reports and live charts.
- Integrated Chargebee subscription flows and failed-payment worker.
- Built USDA analytics dashboards and Jest integration tests.

Xira | Jan 2022 - May 2023
Support Engineer / SRE
- Monitored production servers and resolved incidents.
- Automated recurring monitoring and performed root-cause debugging.

SELECTED PROJECT
Gasolinazo | gasolinazo.vercel.app
Mobile-first gasoline price comparison in Mexico with React, TypeScript, Vite, React-Leaflet, TanStack Query and Zustand; nightly national data pipeline.

EDUCATION
B.S. Mechatronics Engineering - Instituto Tecnologico de Los Mochis, 2021
Electronics Technician - CETis 108, 2016

LANGUAGES
Spanish: Native | English: Advanced (C1 speaking)
